GOOGLE

Visit the Search Settings page
at www.google.com/preferences.

In the SafeSearch filters section, check the box next
to Filter explicit results to filter sexually explicit video
and images from Google Search result pages, as well as
results that might link to explicit content.

Turn SafeSearch on or off

1. Visit the Search Settings page at www.google.com/preferences.

2. In the "SafeSearch filters" section, check the box next to "Filter explicit results"
   to filter sexually explicit video and images from Google Search result pages, as
   well as results that might link to explicit content. If you choose to leave it
   unchecked, we will provide the most relevant results for your query and may
   serve explicit content when you search for it.

3. Make sure to click the **Save** button [Save] at the bottom of the page.

If you're signed in to your Google Account, you can also lock the SafeSearch filter so
others don't change it by clicking **Lock SafeSearch**.
